Summary

Computer Science student (Open University, Year 1) and graduate of the Data Analyst Expert program at John Bryce. Skilled in Python, SQL, Excel, and Power BI. Strong leadership background from military and managerial experience. Motivated to apply analytical and technical skills in data-driven projects, particularly in healthcare and technology.

Technical Skills

Languages: Python, SQL.
Data Tools: Pandas, Matplotlib, Seaborn, Excel.
Visualization: Power BI.
Developer Tools: GitHub, VS Code.

Education

B.Sc. in Computer Science | Open University of Israel (2025 – Present).

Data Analyst Expert Program | John Bryce (Nov 2024 – Mar 2025).

Advanced English Course | Burlington English (Jan 2023 – Jul 2023).

Work Experience

General Manager | Scouts Movement (Tzo'im) (Dec 2022 – Oct 2024).

- Led projects/events for 1,300+ participants, managing teams and budgets.

- Developed leadership, communication, and organizational skills.

Staff Sergeant | IDF Paratroopers Brigade (Mar 2020 – Nov 2022).

- Commanded and trained a squad of soldiers, ensuring operational readiness under pressure.

- Gained extensive leadership and teamwork experience.

Projects

Marathon Training Visualization (Python).

- Built visualizations analyzing training progress using running watch data.

- Tools: Python (Pandas, Matplotlib, Seaborn).

- Derived insights on pace, distance, and heart rate trends.

Retail Sales Analysis (SQL).

- Conducted analysis on retail sales with complex SQL queries.

- Tools: SQL.

- Produced insights on product profitability and customer behavior.

Tourism Database Project (SQL).

- Designed and implemented a tourism database from scratch.

- Tools: SQL (database design, ERD).

- Created a 'Cup of Coffee Index' and travel metrics (visa, weather, costs).
